

First Heading

Second Heading

Third Heading

This is some content that contains inline *italics*, **bold**, and `code fn()`.

But mdpdf also supports ~~strikethrough~~.

You can organise your projects with todolists (broken ATM):

- ☐ But
- ☒ This
- ☐ Is
- ☒ not
- ☐ the
- ☒ end

Or take notes with unordered or ordered lists:

- notes
 - are
 - mandatory
-
1. order
 2. is
 3. absolute

| Tables | are | supported | too |
|--------|----------|-----------|---------------------|
| In | addition | too | ‘smart punctuation’ |

```
def function():
    return "Hello World!"

# and syntax highlighted code blocks

if __name__ == "__main__":
    print("That features extensive support")
```

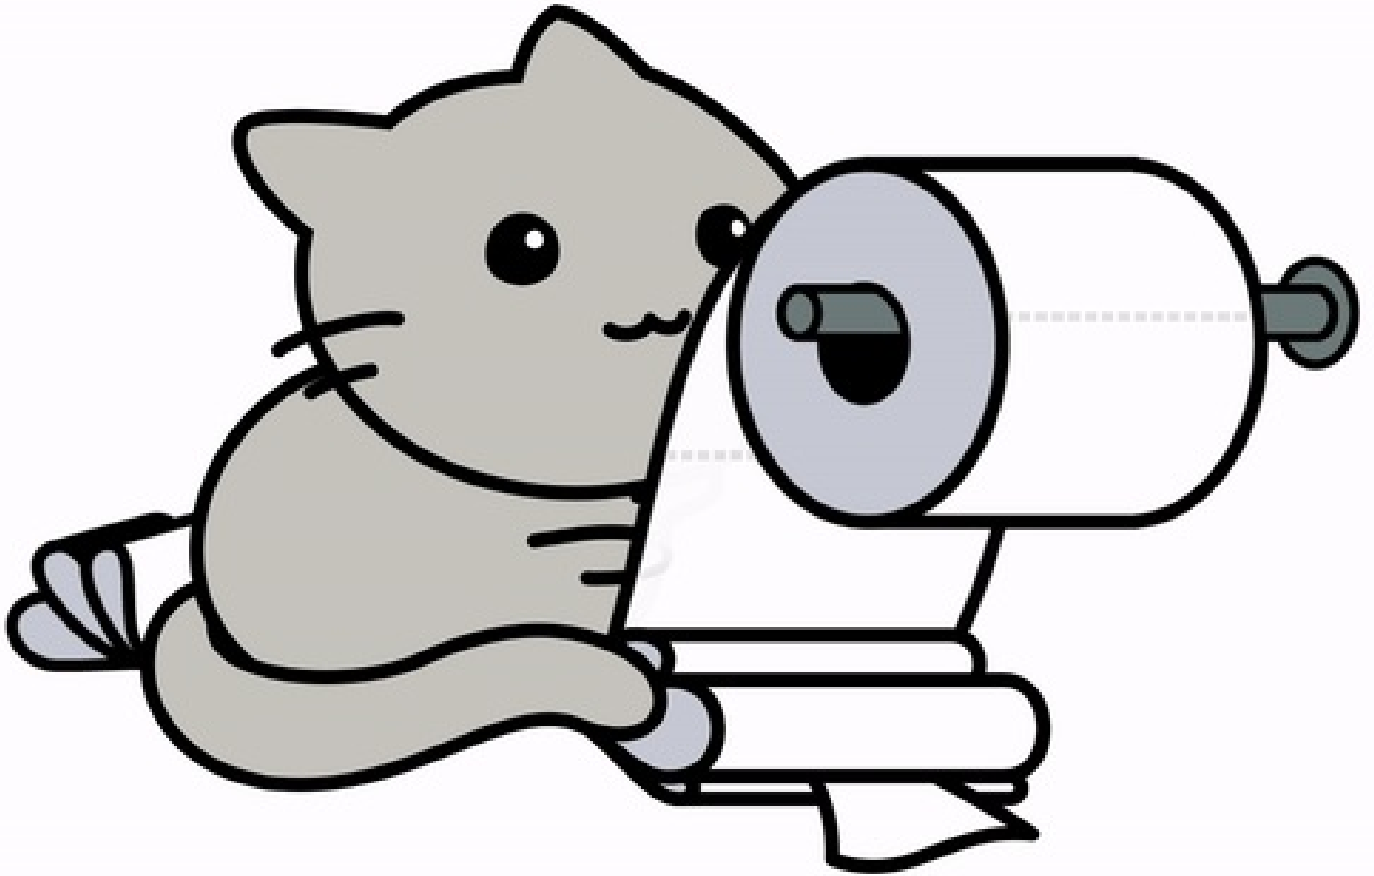

There’s also blockquotes

That even support

Nesting

Breaking with `<div class="break"></div>`:
