

# First Heading

## Second Heading

### Third Heading

This is some content that contains inline *italics*, **bold**, and `code fn()`.

But mdpdf also supports ~~strikethrough~~.

You can organise your projects with todolists (broken ATM):

- ☐ But
- ☒ This
- ☐ Is
- ☒ not
- ☐ the
- ☒ end

Or take notes with unordered or ordered lists:

- notes
- are
- mandatory

1. order
2. is
3. absolute

Tables	are	supported	too
In	addition	too	‘smart punctuation’

```
def function():
    return "Hello World!"

# and syntax highlighted code blocks

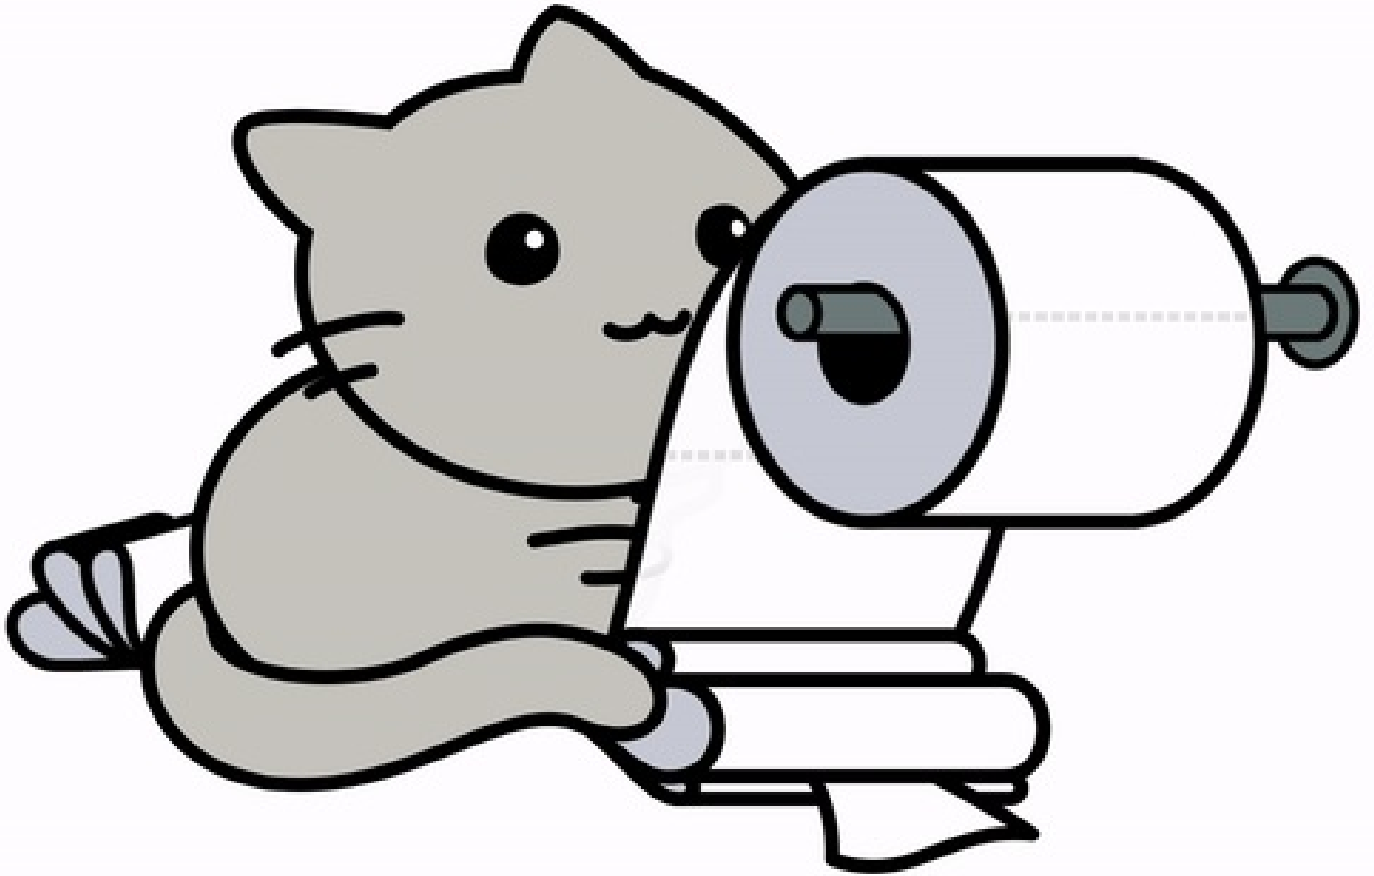

if __name__ == "__main__":
    print("That features extensive support")
```

There’s also blockquotes

That even support

Nesting

Breaking with `<div class="break"></div>`:
